Bespoke Leisure Living was established in 2004 when it acquired the business of Crownwind, an established timber lodge manufacturer. Since its inception Bespoke has continued to produce timber lodges of the highest quality whilst developing a number of innovative new products.

In all its products, Bespoke aims to provide the utmost quality both in materials and in workmanship. As a minimum, we manufacture all cabins to comply with British Standards BS3632. In many areas, of our craftsmanship far exceed this standard. We employ time-served craftsmen to build our products and each unit is manufactured as a unique build rather than as part of a production line.

In addition to build and finish quality, which far exceeds the best the market has to offer, a key element of the service that Bespoke provides, is the ability to tailor each unit to the specification of you, the customer.

We believe that our greatest strength lies in the fact that we do not manufacture on a conventional production line and so are able to produce a product tailored to your specific suggestions and requirements
